

# READY TO SECURE YOUR CLIENTS' FARM HEALTH?

WE WILL HELP YOU GET THERE

[WWW.BIOCHECK.UGENT.BE](http://WWW.BIOCHECK.UGENT.BE)

# WORLDWIDE STANDARD FOR QUANTIFICATION OF BIOSECURITY

## WHAT IS BIOCHECK.UGENT?

Through years of research, Ghent University developed a unique risk-based scoring system to measure the level of biosecurity at farm level. This resulted in a free biosecurity assessment tool, available for different animal species and in multiple languages.

## OUR SERVICES

### Advanced users

Take biosecurity evaluation a step further with personalized feedback, sharing of reports, setting own benchmarks, tracking of your progress visually.

### e-learning

Short interactive online lectures to improve knowledge regarding biosecurity. (available in different languages)

### Training & education

Live on-site biosecurity training by our experts. After the training, you will be able to perform biosecurity assessments and use the Biocheck.UGent methodology.

### Consultancy

Audits performed by our experts during a farm visit, a thorough evaluation and report is provided afterwards.

## API

Our surveys and scoring algorithm can be integrated in your applications or software, giving you access to our worldwide database for benchmarking.
